

Christian Berkhimer

Information Science and Technology

Summary

I am an enthusiastic student of technology who is passionate about solving real world problems using technical solutions. I am a Temple University graduate with a Bachelor of Science in Information Science & Technology. I have been working with various languages and programs since 2016. I have created websites complete with custom APIs, various .NET applications, and more. I am currently seeking a software development position with an employer where I can grow and develop my skills.

Skills

Tools	Languages	Other Experience
<ul style="list-style-type: none">• Visual Studio• Visual Studio Code• Postman• Oracle SQL• MySql• AWS• IntelliJ	<ul style="list-style-type: none">• C#• .NET• SQL• HTML, CSS, Javascript• Java• C• Python	<ul style="list-style-type: none">• Agile Development• RESTful API's

Relevant Experience

ISRA - Independent Study Research Application

- ISRA is a dashboard that my capstone group and I created for students and professors to manage their independent study applications
- We utilized Agile development to create an organized work environment
- We also utilized Github to merge and pull various branches to work on in our local environment

Real Estate Project

- In Server Side Web Application Development, we were tasked with creating a real-estate website complete with a RESTful API
- The site uses ASPX pages and utilizes HTML, CSS and JS for frontend and C# for backend
- The API is complete with GET, POST, INSERT and DELETE HTTP requests that execute their respective stored procedures
 - **Github Links:**

Education

Temple University - December 2023

Bachelor of Science: Information Science & Technology

Methacton High School - June 2019

High School Diploma

Relevant Coursework

- Information Systems Implementation
- Server Side Web Application Development
- Client Side Scripting for Web
- Info Systems Analysis & Design
- Data Structures
- Math Concepts in Computing
- Database Management Systems
- Component Based Software Design
- Program Design & Abstraction
- Network Architectures

Interests

- Coding
- Reading
- Photoshop
- Music
- Guitar
- Cooking
