Christian Berkhimer
Information Science and Technology Major at Temple University

Summary

I am currently studying Information Science & Technology at Temple University. I have been working with various different coding languages and programs for about six years, and I have extensive experience in Java, Javascript and C#. I am able to create websites, manage databases, .NET programs, and more. I am currently seeking a web development internship to gain experience in a business setting, and to further improve my skill set.
